Download Skype for your computer, mobile, or tablet to stay in touch with family and friends from anywhere. When you use a browser, like Chrome, it saves some information from websites in its cache and cookies. Clearing them fixes certain problems, like loading or formatting issues on sites. In ChromeAwesome! It works perfectly, but I didn't use Samsung apps. I go to f-droid and download the "cyanogen file manager" and use it instead of "es file explorer" I think it is less work than making a Samsung account and in reality, those programs do the same thing (file explorer), otherwise your explanation is very good, simple and concise.
