

Download Geography Focus Economics Economics

Economics (/ ˈ k ɛ ː n ɔ ː m ɪ k s, i ˈ k ɛ -/) is the social science that studies the production, distribution, and consumption of goods and services. Economics focuses on the behaviour and interactions of economic agents and how economies work. Philosophy and economics, also philosophy of economics, studies topics such as rational choice, the appraisal of economic outcomes, institutions and processes, and the ontology of economic phenomena and the possibilities of acquiring knowledge of them.
