The seventh edition, by Charles H. Henrickson, Larry C. Byrd, and Norman W. Hunter of Western Kentucky University, offers clear and concise laboratory experiments to reinforce students' understanding of concepts. The scientific method is an empirical method of acquiring knowledge that has characterized the development of science since at least the 17th century. **ABSTRACT.** The process of drug development involves non-clinical and clinical studies. Non-clinical studies are conducted using different protocols including animal studies, which mostly follow the Good Laboratory Practice (GLP) regulations.
