## **Music Recommendation And Discovery**

Welcome to Gnod's World of Music Gnod is a self-adapting system that learns about the outer world by asking its visitors what they like and what they don't like. If you are on the lookout for new tunes, try these seven websites and apps for social music discovery. Liveplasma lets you discover new artists based on what you already like. A visual discovery engine With more than 10 years of experiments on how to provide intuitive, rich and smart radios, how to make sense of behavioural data and produce precise descriptive metadata on music content, Musicoverly is in a unique position to provide a comprehensive recommendation engine.
