Organizations and Organizing: Rational, Natural and Open Systems Perspectives [W Richard Scott] on Amazon.com. *FREE* shipping on qualifying offers. This broad, balanced introduction to organizational studies enables the reader to compare and contrast different approaches to the study of organizations. This book is a valuable tool for the reader. There are three key theoretical perspectives of organizations: rational, natural and open systems. Understanding these different perspectives is critical because each makes important points about organizations. Since Rational Recovery entered public consciousness, I have had the privilege of appearing on a good number – actually hundreds – of TV and radio talkshows.
