

Download Orphans Wolves Loving It

With *Ice Wolves*, Amie Kaufman does exactly what an author should do—makes you wish that you had the next book in the series! I had great hopes for a book with dragons, transformations, and conflict between two races and, for the most part, those hopes were fulfilled. Everyone in Vallen knows that ice wolves and scorch dragons are sworn enemies who live deeply separate lives. So when twelve-year-old orphan Anders takes one elemental form and his twin sister, Rayna, takes another, he has to question whether they are even related. To celebrate her 50th birthday Catherine Mack takes a leap into the wilderness of Soomaa National Park in Estonia, equipped with a pair of bog shoes, a canoe and a keen eye for wolves. The extraordinary Baudelaire orphans face trials, tribulations and the evil Count Olaf in their fateful quest to unlock long-held family secrets. Watch trailers & learn more.
