

Download Solute Vs Solvent Solution

Furthermore, there is a limit to the amount of solutes that we can add to a certain amount of solvent. We say the solution has become saturated if we have added the maximum amount of solutes to the solvent. Difference between Solute and Solvent . A solution could be described as the homogenous mixture of two or more substances. In a solution, the substance that gets dissolved is solute, whereas the solvent is the substance in which the solute will dissolve. Difference Between Solute and Solvent August 31, 2017 By Rachna C Leave a Comment Solute and Solvent are the part of the solution where the dissolved matter in any solution or mixture is called as the solute , while the liquid or gas that dissolves another liquid, solid or gas is called as the solvent .
