## **Elizabeth Vaughan**

The chronicles of the warlands are one of my favorite story. It made me think back to the story like "never ending story" with more adults context. Elizabeth A. Vaughan is the USA Today bestselling author of the Chronicles of the Warlands series. She believes that the only good movies are the ones with gratuitous magic, swords or lasers. Elizabeth Vaughan is the USA TODAY Bestselling Author of Warprize, the first volume of The Chronicles of the Warlands. Her father introduced her to sci/fi and fantasy, and she's never looked back.
