Enter your mobile number or email address below and we'll send you a link to download the free Kindle App. Then you can start reading Kindle books on your smartphone, tablet, or computer - no Kindle device required. Enthalpy H , a property of a thermodynamic system, is equal to the system's internal energy plus the product of its pressure and volume. The enthalpy of vaporization, (symbol H_{vap}) also known as the (latent) heat of vaporization or heat of evaporation, is the amount of energy that must be added to a liquid substance, to transform a quantity of that substance into a gas.
